

spaces designed with **purpose,** built on the **right** **materials**

A working reference of furniture design, board & hardware materials, trusted vendor partners, and MEP planning checkpoints used across KNBR Interiors projects.

INSIDE THIS BROCHURE

- 01 Furniture Design
- 02 Materials — Plywood Grades
- 03 MDF & HDHMR
- 04 Companies Tied Up
- 05 Hardware Knowledge
- 06 Planning — Electrical, Plumbing & Lighting

Walnut Veneer

Matte Laminate

Charcoal Acrylic

Oak Finish

Accent PU Paint

Quartz Grey

Design Decisions, Backed by Material Knowledge

Every **KNBR** Interiors project — from a modular kitchen to a full home fit-out — is planned against a consistent reference: board selection, hardware specification, and MEP points.

HOW **THIS** BROCHURE IS ORGANISED

Design

the ten core furniture applications KNBR plans for, plus finish knowledge.

Materials

plywood, MDF and HDHMR — grade & where each is used.

Vendors

hardware brands tied up with, and price bands.

Planning

electrical, plumbing, ceiling & lighting checkpoints.

Furniture Applications We Plan For

Each application below is designed with the right board, edge finish and hardware combination for its use.

Modular Kitchen

Wardrobes

TV Unit

Crockery Unit

Study Table

Shoe Rack

Vanity Unit

Bed with Storage

Dressing Table

Pooja Unit

Finish & Surface Knowledge

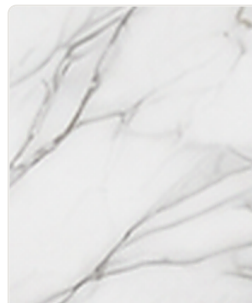

Edge Banding

Quartz

Granite

Artificial Marble

Glass

Plywood Grades

Plywood is specified by moisture resistance — the wetter or more temperature-exposed the application, the higher the grade required.

Bedrooms / wardrobes

→ **MR**

Study / TV units

→ **BWR**

Kitchen / utility

→ **BWP**

MR

Plywood

Moisture resistant

Bedrooms / wardrobes

BWR

Plywood

Boiling-water resistant

Study / TV units

BWP

Plywood

Boiling-water proof

Kitchen / utility

Specification rule of thumb

Dry, low-moisture rooms → **MR** is sufficient.

Semi-wet or frequently cleaned surfaces → step up to **BWR**.

Kitchens, utilities and any board near continuous water exposure → **BWP** is the minimum specification.

MDF & HDHMR

Board selection is matched to moisture exposure, performance requirements and the intended finish.

Standard MDF

General-purpose board for everyday furniture components.

Moisture-resistant MDF

Used where boards face humidity or occasional moisture exposure.

Fire-resistant MDF

Specified where fire-performance requirements apply.

HDHMR — High Density High Moisture Resistant Board

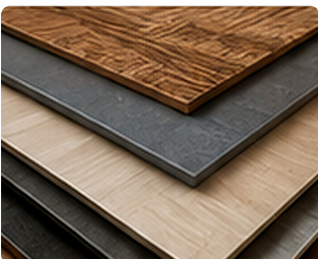

A denser particle/block-board category positioned above standard MDF for demanding moisture conditions.

Finish compatibility

Laminates

Wide range of colours, textures and finishes for every style.

Acrylic Finishes

High gloss, smooth and premium look & feel.

PU Paint

Seamless, rich finish with endless colour possibilities.

Veneer

Natural wood beauty with a refined premium touch.

Hardware & Fitting Brand Partners

Brands referenced for hinges, channels, drawer systems
and wardrobe accessories specified on KNBR Interiors projects.

 **Hettich**

Engineered precision.
German quality.

HÄFELE

German technology.
Trusted worldwide.

↑ **blum®**

Perfecting motion.
Enhancing living.

EPLO

Functional hardware.
Reliable performance.

Precision hinge & channel hardware

Reliable performance. Long-lasting quality.

The fourth brand name is reproduced here as “EPLO”, matching the source note —
confirm exact spelling before external use.

Trusted Partnerships

Long-term associations with
world-class hardware
manufacturers.

Consistent Quality

Products that meet global
standards for durability and
performance.

Complete Solutions

Hinges, channels, drawers
and accessories for every
application.

Reliable Support

Technical support and
service for seamless project
delivery.

Hardware Categories

Core hardware categories used across kitchens, wardrobes, storage and furniture applications.

Soft-close Hinges

Telescopic Channels

Tandem Box Drawers

Lift-up Mechanisms

Handles

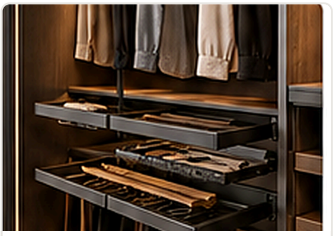

Locks

Drawer Systems

Wardrobe Accessories

Indicative Price Bands

Hardware	Price Range (₹)
 Soft-close hinges	70 – 550
 Telescopic channels	101 – 1,337
 Tandem box drawers	800 – 10,756

 Figures are carried over from source notes — please verify current pricing with the brand partner before quoting to clients.

Premium Quality
 High-performance hardware for long-lasting durability.

Smooth Functionality
 Designed for effortless movement and quiet operation.

Wide Compatibility
 Solutions for kitchens, wardrobes and every furniture need.

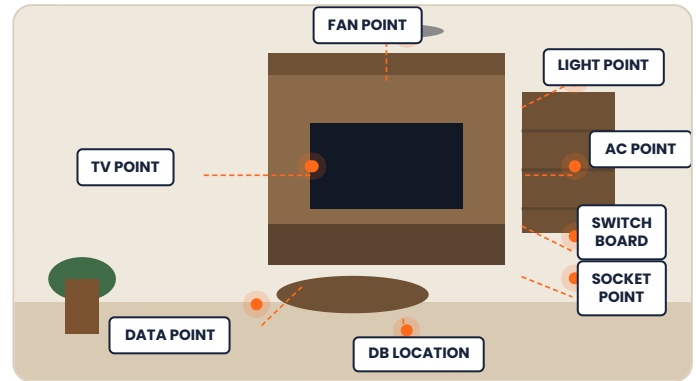

Reliable Support
 Expert guidance and after-sales support from trusted brand partners.

Electrical & Plumbing Planning

Checkpoints marked before civil and carpentry work closes, so furniture layouts and MEP points align cleanly.

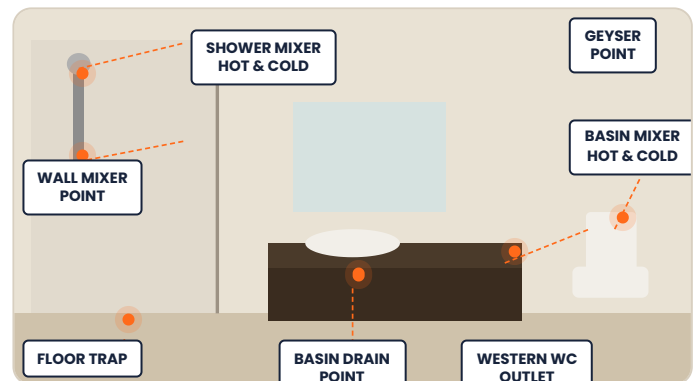

Electrical Planning

	Switch & Socket Locations	Planned as per furniture layout, appliance positions and usage convenience.
	TV & Data Points	Dedicated points for TV, internet, set-top box and gaming consoles.
	Lighting Points	General, task and accent lighting points planned for each space.
	Fan Points	Fan locations planned at optimal centre points.
	Distribution Boards	DB locations planned for safety, access and future scalability.

Plumbing Planning

	Water Inlet & Outlet Points	Planned for sinks, basins, shower areas, washing machine, RO, dishwasher, etc.
	Drainage Points	Waste, floor trap and gully trap positions marked as per layout.
	Geyser Points	Geyser points planned with proper electrical and plumbing alignment.
	Utility & Service Areas	Washing machine, dishwasher and utility sink points planned.

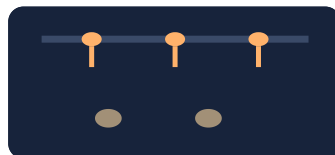

Lighting & Ceiling Planning

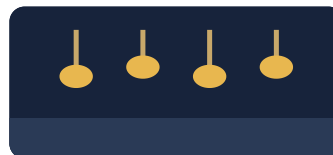

False Ceiling Layout

Ceiling levels and cuts planned for lighting, AC, fans and decorative elements.

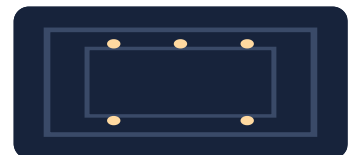

Lighting Types

Cove, recessed, track, pendant and profile lighting planned as per design intent.

Task & Accent Lighting

Focused lighting for work areas and accent lighting for highlight zones.

Concealed Services

All electrical conduits, drains and service lines concealed and coordinated.

Better Coordination

Seamless coordination between design, carpentry and MEP.

Error-Free Execution

Reduces on-site clashes and last-minute changes.

On-Time Delivery

Pre-planned MEP ensures smooth project timelines.

Long-Term Reliability

Safe, efficient and future-ready installations.

Civil & Carpentry Scope Overview

Civil and carpentry works executed with precision for durable, functional and high-quality interiors.

Civil Works

Wall Construction

Brick/block work for new partitions and structural additions.

Plastering & Finishing

Smooth plastering for wall and ceiling surfaces.

Flooring & Tiling

Vitrified/ceramic tiling for floors and dado as per design.

Waterproofing

Toilets, balconies and utility areas treated for leak protection.

Painting

Surface preparation and premium paints for a lasting finish.

Carpentry Works

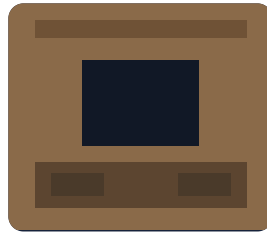

Wardrobes

Custom-built wardrobes with optimized storage and smooth finishes.

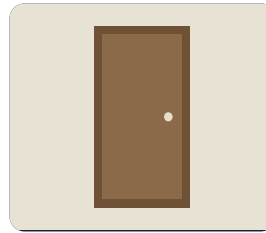

Modular Kitchens

Ergonomic kitchen cabinets with functional accessories.

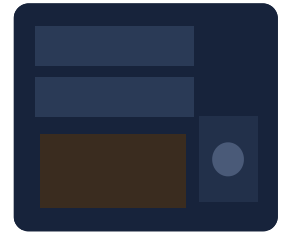

TV Units

Stylish TV units with storage and wire management.

Doors & Frames

Quality door shutters and frames for a perfect fit and finish.

Study Units & Shelves

Functional study tables, wall shelves and storage solutions.

Quality Assurance

Premium materials with verified quality

Accurate measurements and workmanship

Durable finishes for long-term performance

Skilled team and timely execution

Our Commitment

On-Time Completion

Committed to project timelines.

Clean & Safe Worksites

Maintaining safety and cleanliness at every step.

Transparency in Execution

Regular updates and clear communication throughout.

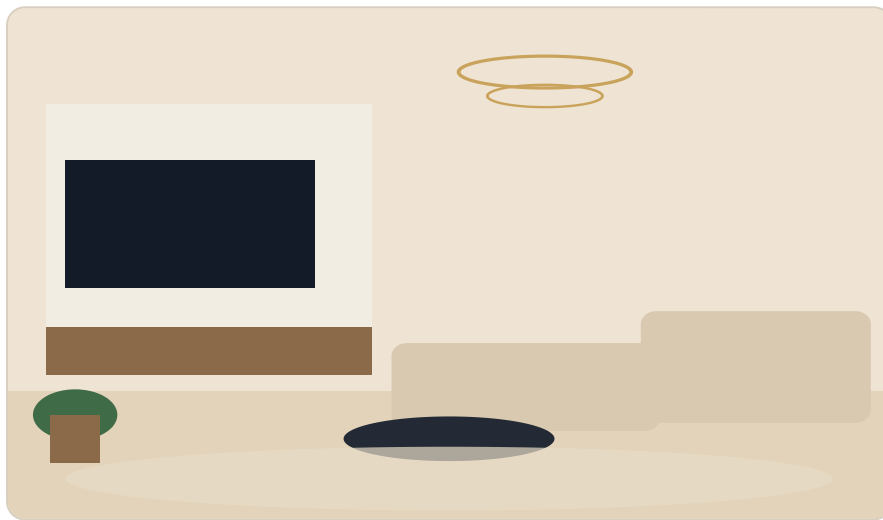

Customer Satisfaction

Quality outcomes that exceed expectations.

From Concept to Completion

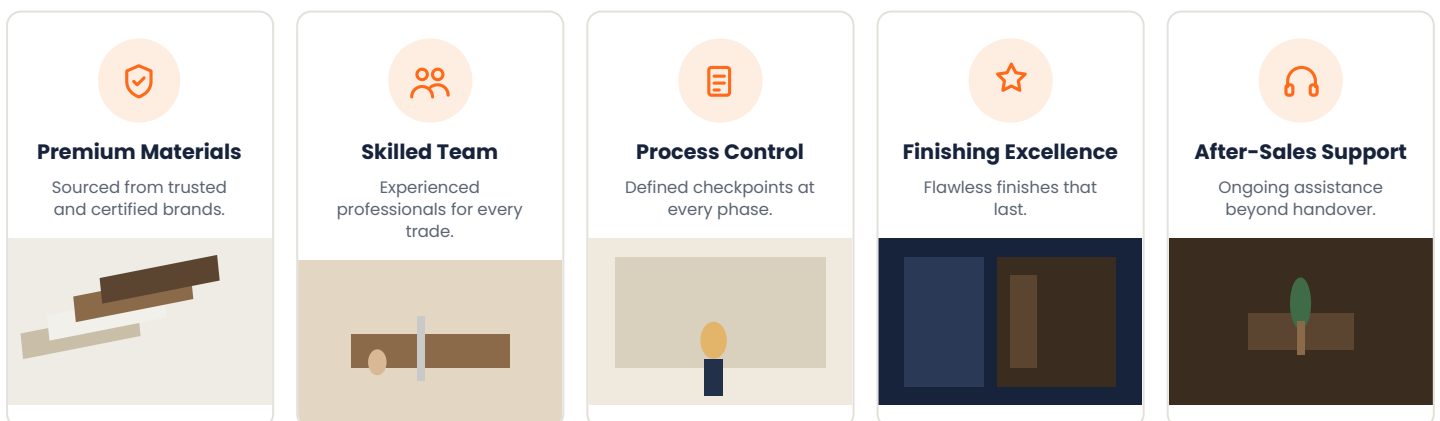

A clear, step-by-step process ensures transparency, quality and timely delivery in every KNBR Interiors project.

Our Approach

- ✓ **Client-first mindset**
Your needs drive every decision.
- ✓ **Transparent process**
Regular updates at every stage.
- ✓ **Precision execution**
Attention to detail, always.
- ✓ **Timely delivery**
Planned, tracked and delivered as promised.

Quality & Execution Standards

“ Well-planned today, beautifully delivered tomorrow.
That's the **KNBR** promise.

Execution & Site Works

From carpentry and modular installation to finishes and quality checks — every detail is executed with precision and care.

Scope of Execution

Carpentry Works

On-site carpentry, modular unit installation and refinements.

Modular Installation

Installation of kitchen, wardrobes, TV units and storage systems.

Electrical Works

Wiring, fixture installation, switches, sockets and testing.

Plumbing Works

Water supply, drainage, geyser and appliance connections.

Finishes & Fittings

Painting, laminates, hardware fitting and final touch-ups.

Quality Check & Handover

Final inspection, snag rectification and clean handover to the client.

Execution Process

01. Planning

Review drawings, materials and site conditions.

02. Preparation

Material receiving, site protection and setting out.

03. Installation

Carpentry, modular installation and civil touch-ups.

04. MEP Works

Electrical and plumbing rough-in and fittings.

05. Finishes

Final finishes, hardware, fixtures and accessories.

06. QC & Handover

Quality check, snag closure and client handover.

On-Site Best Practices

Safety First

Strict adherence to site safety norms at all times.

Precision Work

Accurate execution as per drawings and specifications.

Clean Site

Daily housekeeping and waste management.

Skilled Team

Experienced workforce and trained specialists.

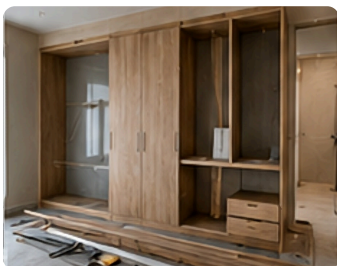

Timely Delivery

Structured planning to meet project timelines.

Quality Assured

Multi-level checks to ensure lasting quality.

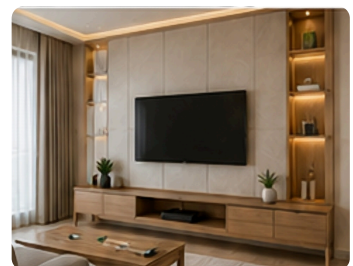

Carpentry in Progress

Modular Installation

Electrical Works

Finishing & Final Touches

Surface Finishes & Materials

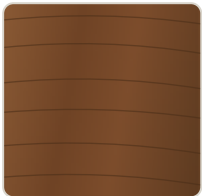

A summary of primary finishes used across KNBR Interiors projects, selected for durability, aesthetics and performance.

Wood Finishes

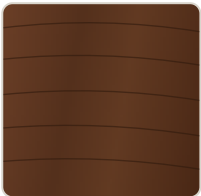

Engineered wood and laminates with a wide range of textures, colours and applications.

Light Oak

Walnut

Teak

Ash Grey

Wenge

Applications

- Wardrobes
- Kitchen Cabinets
- TV Units
- Doors
- Wall Panelling

Solid Surfaces & Stones

Premium surfaces for countertops and wall cladding, combining strength with elegance.

Acrylic Panels

Applications

- Profiles & Frames
- Handles & Fixtures
- Glass Partitions
- Decorative Elements
- Accent Details

Premium Quality

Carefully chosen materials that ensure long-lasting performance and beauty.

Aesthetic Variety

Wide selection of finishes to suit every style and design intent.

Easy Maintenance

Surfaces selected for easy cleaning and everyday durability.

Sustainable Choice

Responsible sourcing and materials chosen for a better tomorrow.

Trusted Brands

All finishes are from reputed brands and reliable partners.

Site Execution & Coordination

Structured execution and coordination to ensure quality, alignment and timely delivery on site.

Key Aspects

Skilled Execution Team

Experienced carpenters, electricians and technicians for precise installation.

Material Verification

All materials checked for quality, quantity and specifications before installation.

On-Site Supervision

Regular supervision to ensure adherence to drawings and quality standards.

Vendor Coordination

Seamless coordination with vendors and suppliers for smooth site progress.

Quality & Safety

Strict quality checks and safety practices followed at every stage.

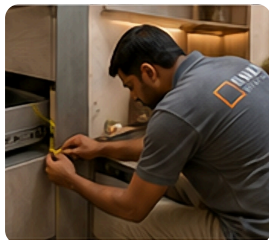

Site execution is carried out as per approved drawings and specifications, ensuring accuracy, durability and timely completion.

Site Workflow

Key Focus Areas

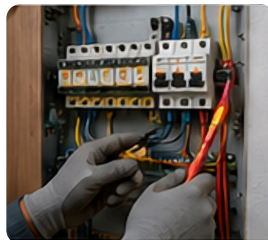

Accuracy

Exact execution as per design and technical drawings.

Finishing

High-quality finishes with attention to every detail.

Functionality

All systems tested for seamless and safe operation.

Coordination

Smooth coordination among all trades and stakeholders.

Timely Delivery

Committed to on-time completion without compromising quality.

Execution Principles

Plan Clearly

Execute Precisely

Inspect Regularly

Deliver Excellence
